Dentist, Dental Hygienist, and Denturist Providers

Changes to Coverage of Dental Procedure Codes D1203, D1204, and D1208

Effective January 1, 2013, the American Dental Association has updated coverage of some dental procedure codes.

D1203, topical application of fluoride for children, and D1204, topical application of fluoride for adults, have been deleted.

Procedure code D1208 has been added, and should be used for the topical application of fluoride for either children or adults between ages 0–999. The new code will pay the same amount as the deleted codes had, \$15.64.

Providers are encouraged to check eligibility monthly prior to providing a service to ensure payment is available.

Please access the new Dental and Denturist Medicaid Fee Schedule on the Medicaid Provider website or call Provider Relations at the number below if you have questions.
