## Adult and Pediatric Specialty Table of Services Available in Montana

Mountain-Pacific Quality Health (MPQH) and Montana Medicaid have developed a provider specialty table that lists specialty providers for adult and pediatric services in Montana.

The table includes Montana facilities, physician specialties, Montana Medicaid-enrolled physicians who perform specialized services, and contact numbers.

This unique tool can be used as a quick reference in determining which facility to send Montana Medicaid members to for specialized services (adult and pediatric) if the services cannot be provided in the current facility.

The table is available on the MPQH website at <http://mpqhf.com/corporate/medicaid-utilization-review/>. Click on the Out-of-State Inpatient Admissions link and scroll to the link for the database of specialty services available in Montana.

This table will be reviewed twice a year to ensure information is up-to-date.
