### **New Optometric Codes Require Prior Authorization**

Effective January 1, 2012, the Montana Medicaid Optometric program has two new codes that require a prior authorization from the Program Officer at the Department of Public Health and Human Services

The new codes are for contact fitting and management services: 92071 and 92072. The optometric benefit will reimburse for these services only when prior authorization is requested and granted. This prior authorization code needs to be included on the Professional claim form CMS-1500 before the service will be reimbursed.
