Montana Health Care Programs Notice

Physician, Mid-Level, and Pharmacy Providers

Effective July 29, 2014

SmartPA Quantity Limit for Oxycodone

Montana Medicaid will be instituting a quantity limit of 240 units per 30 days for Oxycodone single entity immediate release products. Effective July 29, 2014, an accumulation of oxycodone units over 240 units per thirty days, will deny requiring a prior authorization.

The limit of 240 Oxycodone units applies to all Medicaid members except those with a malignant cancer diagnosis or those taking an antineoplastic agent.

If a claim denies for prior authorization and the prescriber or pharmacist wants to pursue obtaining a prior authorization, he/she may submit a request by mail, telephone, or fax to the Medicaid Drug Prior Authorization Unit.

The Request for Drug Prior Authorization Form is available on the [Forms](#) page of the Montana Medicaid Provider Information website.
