Montana Plan First – ICD-10 Update

Effective October 1, 2015, Montana Healthcare Programs requires the use of ICD-10 diagnosis codes on claims with dates of service on or after October 1, 2015.

Any services, listed in the “May be family planning or family planning related service” column on the Plan First Service Codes table will now require either a FP modifier or a Z30.XXX diagnosis code for reimbursement.

The surgical diagnosis codes on the July 1, 2015 covered code list have been mapped to the corresponding ICD-10 codes.

An updated version of the Plan First Service Codes table is attached to this notice.
