Vaccine for Children Code Update

The Vaccines for Children (VFC) program makes selected vaccines available at no cost to providers for eligible children 18 years old and under. Medicaid will therefore pay only for the administration of these vaccines. HMK children are not eligible for the VFC program. [Please see the CDC website https://www2a.cdc.gov/vaccines/iis/iisstandards/vaccines.asp?rpt=cpt for the updated dosages.](https://www2a.cdc.gov/vaccines/iis/iisstandards/vaccines.asp?rpt=cpt)

Please note: 90672 (FluMist) Influenza virus vaccine, quadrivalent, live (LAIV4), for intranasal use has been reinstated. Trivalent flu products 90656 and 90658 are no longer available.

The vaccines provided by VFC as of October 1, 2018 are as follows:

Vaccines and the administration of vaccines are not covered services in an RHC or FQHC setting and are not separately billable, except services provided to children enrolled in HMK.

Healthy Montana Kids (HMK)

Since HMK-enrolled children are not entitled to the Vaccines for Children (VFC) program, RHC and FQHC providers may bill Montana Medicaid for vaccines using revenue code 636 and the vaccine procedure code. If a child received a physician or mid-level visit, vaccines will be paid and administration fees will bundle with the visit fee and pay at zero. If vaccines are administered without a physician or mid-level visit, providers may also bill for the vaccine administration fees using revenue code 771 and vaccine administration procedure codes. An immunization-only visit does not qualify for a visit fee.
