Montana Medicaid Healthcare Programs Providers

Rate Updates Mass Adjustment

Montana Healthcare Programs have updated provider rates, effective July 1, 2018, in accordance with Montana Administrative Register 37-863. The Department has finalized the adjustment process for claims billed before October 22, 2018 for claims with a date of service on or after July 1, 2018. The Department expects the process to adjust all applicable claims to take approximately six months beginning the week of November 19th. The Department will post information weekly on the Provider website general page identifying the groups of claims to be mass adjusted for the next week.

Final fee schedules can be found on the Montana Healthcare Programs Provider Information Website under the menu option, Resources by Provider Type. [In accordance with Montana Administrative Register 37-863, MAR 37-863 http://www.mtrules.org/gateway/ShowNoticeFile.asp?TID=8777.](http://www.mtrules.org/gateway/ShowNoticeFile.asp?TID=8777)

Claims will be adjusted based on the appropriate payment methodology, therefore not all claims (or claim lines) will be adjusted in the same manner.

There will be no changes to cost share for claims included in the mass adjustment.

Providers who billed below the updated allowed amount for the service can resubmit individual adjustments per the instructions found in the General Medicaid Manual. No action is required by providers who billed usual and customary charges. Home and Community-Based Services, and Personal Assistance/Community First Choice providers will follow a separate adjustment process and need not submit individual adjustments.

Thank you for serving Montana Healthcare Programs' Members.
