

MONTANA HEALTHCARE PROGRAMS NOTICE

August 18, 2017

All Provider Types

Clinical Pharmacist Practitioner

Please see the following covered codes and descriptions for Drug Therapy Management services provided by Clinical Pharmacist Practitioner (CPP).

99605 - Initial encounter performed face-to-face or direct care with a member to manage their drug therapy must have at least one chronic condition needing at least one maintenance medication. Time increment of up to 15 minutes.

99606 - Subsequent or follow-up encounter is intended to be reported for services provided which are similar to the initial encounter, with an emphasis on updating information provided at the initial encounter, assessment of the patient compliance and reactions and further evaluation of medications which have been added to the patient's drug therapy management with those previously assessed. Time increment of up to 15 minutes for a subsequent or follow-up encounter.

99607 - Additional increments of 15 minutes of time for 99605 or 99606.

If there is a significant change in the member's plan of care (i.e. patient has been diagnosed with an additional chronic disease), this could constitute a new initial patient encounter.

Contact Information

If you have any questions, please contact:

Valerie St. Clair, Hospital Program Officer, at vstclair@mt.gov or (406) 444-4834

For additional information, contact Montana Provider Relations at (800) 624-3958 or (406) 442-1837 or email MTPRHhelpdesk@conduent.com.
