National Drug Code (NDC) Denial Errors

Montana Medicaid had a system error that caused NDCs to be removed from electronic claims when they entered the claims processing system. This error affected claims submitted electronically between December 7, 2021 and February 24, 2022. The error caused claims to deny or to partially pay.

See below for correcting affected claims.

**Outpatient Hospital Claims (UB-04)**

1. If the entire claim was denied, the provider can resubmit the claim electronically.
2. If denials occurred at the line level, the provider could do one of the following:
   a. Submit paper Individual Adjustment Requests for each claim.
   b. Submit electronic replacement claims.
   c. Have the Department conduct a mass credit.
      i. Once the mass credit is processed, providers can resubmit the claims electronically.

**Professional Service Claims (CMS-1500)**

1. These claims can be resubmitted electronically without an adjustment.
