Vaccines and the administration of vaccines are not covered services in an RHC or FQHC setting and are not separately billable, except services provided to children enrolled in HMK.

Healthy Montana Kids (HMK)

Since HMK-enrolled children are not entitled to the VFC program, RHC and FQHC providers may bill Montana Medicaid for vaccines using revenue code 636 and the vaccine procedure code.

If a child received a physician or mid-level visit, vaccines will be paid, and administration fees will bundle with the visit fee and pay at zero.

If vaccines are administered without a physician or mid-level visit, providers may also bill for the vaccine administration fees using revenue code 771 and vaccine administration procedure codes.

An immunization-only visit does not qualify for a visit fee.
