Authorization Requests and Untimeliness

Authorization requests are reviewed by **Telligen** in the **Qualitrac** Portal

- PRTF requests – receive 30 initial days of auth, CSRs reviewed every 30 days.
- TGH requests – receive 120 initial days of auth, CSRs reviewed every 90 days.
- Telligen reviews requests from the date of submission forward.
- When a request is late Telligen will send a Request for Information (RFI) for the reason for the untimeliness. Respond by uploading a Word document with an explanation.
- Approval is given for the remaining days in the authorization period.
 - Example: TGH CSR that is 65 days late will receive 25 out of 90 authorized days. 65 days will be Technically Denied.
 - Example: PRTF CSR is due 01/01/24, submitted 02/15/24. Approved for 02/15-03/01/24 for 15 days. 45 days are Technically Denied.
- If the projected discharge date is within the current review period, approval will be given through that date.

Responding to Requests for Information (RFI)

Request for additional information to support the prior authorization request

- The submitter has **five days** to respond by uploading the requested documents and completing the RFI task.
- After five days with no response, the request receives a **Technical Denial**.
- Technically denied cases must be reopened within **30 days**.
 - Reopened cases are reviewed from the date of reopening forward, the days between the original submission and reopening are Technically Denied.
 - Do not submit a new request to respond to an RFI.
 - New requests opened to respond to an RFI will be closed **Outcome Not Rendered**.

Telligen Appeals

Denials for Medical Necessity Criteria (MNC) can be reconsidered through Telligen's appeals processes

- **Peer-to-Peer (P2P) Review:** Telephonic review between an advocating clinician and the physician reviewer who rendered the adverse determination.
 - Must be requested within 10 business days of the denial.
- **Desk Review:** Based upon the original clinical documentation and any additional supporting documentation. Provided by a licensed psychiatrist who did not issue the initial or a Peer-to-Peer determination.
